

# My Trip to Children's Fairyland

I am going to Children's Fairyland to learn and play.  
When I get to Fairyland, first I will see the old  
woman who lives in a shoe.

## Children's FAIRYLAND

I will go with my adult through the ticket entrance, and I might feel \_\_\_\_\_ as we start our day. There might be a line and I can practice patience while we wait.

I may be given a colorful Magic Key to hold. It is so pretty!

When I explore, I can put my key in any talking Storybook Box and turn it to hear a story or song.

## Children's FAIRYLAND

Fairyland is filled with storybook sets that have characters I may know! I am able to use my imagination and create stories of my own.

Children's Fairyland is 68 years old! I can take care of Fairyland by using extra gentle hands when I touch things.

A lot of children like playing at Fairyland.  
Sometimes it can be loud, and I might feel \_\_\_\_\_.  
I can tell my adult when I need a break.

One of the places I can go when I want to have some quiet space is the Chapel of Peace.

When I need a break, I can also go with my adult to the front office and pick toys from the basket that can help me feel more comfortable.

I might buy food from Fairyland, but if I have a special diet I might want to bring my own snack. I can eat my food at the benches or tables.

I might want to go on rides at Fairyland. I will wait in line until it's my turn to have an adventure. The ride operator will check my height to make sure I'll feel safe.

On the rides, I keep my hands inside and follow the safety instructions so I can have fun without getting hurt.

I can notice the nature around me at Fairyland. I can explore with my 5 senses.

Children's  
**FAIRYLAND**

Fairyland has 18 animals! I will see animals like bunnies, donkeys, horses, and ducks. I can observe them while they play and rest. What do I predict the animals eat? What sounds do they make?

I might see an animal caretaker taking care of the animals in their pens or bringing one out for Animal of the Day.

Children's  
**FAIRYLAND**

I could get the chance to see a puppet show at the Storybook Puppet Theater during my visit at 11 am, 2 pm, or 4 pm.

When it is time to leave Fairyland, I will make my way toward the gift shop and exit through there. I might feel \_\_\_\_\_ when it's time to go home.

I can reflect on my time at Fairyland. I can use what I've learned to play fantasy at home and at school. Hopefully, I can come back again someday soon to play!
